

ESTHETIC ART

ABSTRACT ART WITH ACRYLICS

portfolio

ESTHER MARIA BIANCA MAIR

At the end of 2022, at the age of 28, I experienced burnout. This challenging and difficult time made me look at my life from a different perspective. I focused intensively on myself and looked for something meaningful to do during the long months at home. I soon discovered painting and began experimenting with acrylics. This was the starting signal for an incipient obsession and fascination with colors, shapes, structures and I gradually developed my own sense of Esthetics.
